## **DETAILED ACTION**

### ***Allowable Subject Matter***

This application is in condition for allowance except for the following formal matters:

### ***Oath/Declaration***

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

1. The applicant has failed to sign the declaration. In accordance with 37 CFR 1.42 or 1.43, if the inventor is deceased or incapacitated then the legal representative (guardian, conservator, etc.) may sign in his stead. If the applicant is neither deceased nor legally incapacitated, then a petition under 37 CFR 1.47 wherein the inventor or a known legal representative refuses to join in on an application must be submitted. In addition, the power of attorney document submitted by the applicant lacks the signature of the representing attorney/agent.
2. The title of the referenced specification, "System for Stimulating Hydrecarbon Production" is misspelled. It should read, "System for Stimulating Hydrocarbon Production."

### ***Claim Objections***

3. Claims 1,2 and 4-10 are objected to because of the following informalities: the term "system" in the claims should be changed to either method or process. It is standard in claim language for a series of steps to be referred to as a process or method, while a system commonly refers to an apparatus. Appropriate correction is required.

Art Unit: 3672

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
